By more than a two-thirds majority the House passed a bill providing for the election of United States Senators by the direct vote of the people. The bill should become a law, but as it has to run the gauntlet of the Senate it will never come through alive.

Cleveland's letter to Wilson, and his appointment of Clifton R. Breckinridge, are but two more straws showing how the wind blows around him instead of through him when he and his lackeys are headed against the wind.—Frankfort Capital.

President Cleveland has chosen Judge Lyman Trumbull, of Chicago, and a prominent New York gentleman who has always taken a deep interest in the cause of labor, to serve as members of the commission to investigate the Chicago strike, with Commissioner Carroll D. Wright.

President Cleveland did the proper thing when he appointed Hon. Clifton R. Breckinridge, of Arkansas, Minister to Russia. Mr. Breckinridge has been a faithful and prominent member of Congress for many years, but was refused renomination a short time ago because he voted for the repeal of the Sherman silver law.

The general opinion of late years has been that Dick Tate, Kentucky's defaulting ex-Treasurer, was dead. The Courier-Journal publishes an authentic statement showing that the ex-Treasurer is still alive and in Japan. Ensign Rodman, of the United States Navy, who was recently in Frankfort, says he not only saw Tate in Japan, but visited him at his home.

Col. I. B. Nall, President of the Kentucky Press Association and editor of the Farmers' Home Journal of this city, has determined to make the race for the Democratic nomination for Commissioner of Agriculture, Labor and Statistics of Kentucky. Col. Nall would make an admirable Commissioner. He is popularly known throughout the State and will undoubtedly be a most formidable candidate.—C. J.

Chairman Harter, of the House Subcommittee on Trusts, has written to President Havemeyer, of the Sugar Trust, requesting him to furnish certain information as to the financial status of the big monopoly. This information, Mr. Harter explains, is desired in order to arrive at an intelligent opinion as to the merits of the demands of the trust for protection by taxation. (Harter's Mr. Havemeyer refused to give the information.)

The Missouri Pacific is discharging all of its employees who are members of the American Railway Union.

The Hon. Nicholas McDowell, of Boyle county, has announced his candidacy for Commissioner of Agriculture of Kentucky, the office he now holds by appointment.

While the Masons will not say that Col. Breckinridge has been expelled from his lodge at Lexington, a new list of the membership of the lodge fails to contain his name.

All of the plungers on horse races come to grief sooner or later. The wealthy Mike Dwyer, who is said to have quit last season a half million out, lost \$50,000 at Brighton Beach Sunday.

Read President Cleveland's plain talk on the tariff situation, which appears on our first page. The letter caused a great stir in the Senate and brought forth many frothy speeches, more to their own hurt, however, than to the damage of the President. It is now thought that an agreement will be reached until a bill passed soon.

The McKinley law is the most atrocious law of importance ever thrust upon the people of this country. It benefits no one but a handful of manufacturers. It does not benefit these in a moderate and reasonable degree, but to an extent which makes millions of them in a very few years. This enormous "protection" is excused by the Republican party by shouting in loud tones that it is given the manufacturer so as to "enable him to pay the workmen high wages. Notice that they say "enable." They do not compel the manufacturer to pay these high wages, however, after having "enabled" him to do so, but trust to his honor and philanthropy; and of course the laboring man doesn't get it. Ninety-nine out of a hundred of the manufacturers are human hogs, just the same as the rest of humanity, and they take all they can get. The enormous protection placed upon the goods manufactured is taken advantage of to raise the price of goods. Still the wages of their workmen are not raised, but are reduced upon every pretext. The people of the whole country are made to pay higher prices for all they consume. The McKinley rate of protection is so high that all imports are shut out and the revenue for paying the expenses of the government is cut off; the consequence being that it is necessary to issue bonds (which is nothing more nor less than borrowing money) in order to get money to run this government. Who must finally pay off these bonds? The people, of course. Therefore, the people are made to pay to the manufacturers a tribute which amounts to more than double the sum necessary to run the government, and must also bear the burdens of the expenses of the country. Even if the laboring man got this tribute the case would not be so deplorable; but no one gets any of it except the manufacturer.

With the McKinley law on our books for ten years the country would be almost hopelessly bankrupt.

The Case of John and Jack.
Two men work a week and earn \$15 each. One of them, John, takes his wages Saturday and goes straight home and kisses his wife and hands her \$10. She makes that amount pay all the family expenses of the coming week, and on Monday John puts the other \$5 in the bank. Sometimes John doesn't find quite so much to put in, and sometimes his wife not quite so much to spend for the living, but they manage always to live and put something away. The other man, Jack, stops on his way home Saturday night and pays a bar bill of \$2 or \$3. The barkeeper sets 'em up and Jack tharpoons in a big slug. Other Jacks come in and Jack gets home to a late supper, half full of whisky, his pocket half empty of cash. His wife buys all the necessities on credit and pays the bill as she can squeeze the money out of him, or she leaves it to the collector to get. By Monday all the money is gone and none of it into the bank. Years go by. John moves into a better house and Jack into a poorer one. John is foreman of the shop, and Jack is the first man to be laid off in slack times. John's bank balance swells, while Jack's nose and store accounts swell. By and by John starts a shop of his own, thereby becoming a capitalist. Jack loses his job, thereby becoming a tramp. John attends to his business with humanity and industry and gets rich, while Jack is never able to get off the bar on which he is stranded in his youth, and becomes a striker—a "down trodden son of toil."

And this is the way in which capital is the offspring of labor. This is the way that the "stolen fruit" is gathered by wealth. This is the simple, unvarnished truth.—Tampa Times.

Cough leads to Consumption, Kemp Balm stops the Cough at once.

School Per capita.

The State Superintendent has issued the following circular: "The Auditor's estimate, due this day in accordance with the revised law, has been rendered, and I find that a per capita of only \$2.75 can be declared."

This will be in the nature of a disappointment, as it has been contemplated that at least the rate of last year could be maintained, but in view of the prevailing financial depression and the particularly embarrassed condition into which Kentucky has fallen by reason of a lower tax rate, and a decreased assessment, and extraordinary expenditures since 1890, consequent upon the Constitutional Convention and two sessions of the Legislature, one of which was of extraordinary length, it is a matter of congratulation that the School Fund has suffered so little.

Last year I deemed it my duty to make the per capita sufficiently large to give the schools the use of the fund, with the exception of a comparatively very small balance to meet possible contingencies, rather than leave lying idle the sum of \$280,000, as was found to be the case the year before, or \$36,000, as in the year preceding that. Of the policy of reserving anything except a bare sufficiency to prevent overhauling the people might justly complain, and I acted, as I thought, consistently with the public interests.

It is proper to explain to the people, through you, why it is impossible to maintain the high rate of last year:

1. The Assessors' returns of taxable values for the fiscal year just closed were more than \$25,000 less than those for the year preceding. This, of course, means a marked decrease of funds available for the schools.

2. It is estimated that the tax on banks, the stock license, &c., will be materially less.

3. The census returns show an increased school population of 7,355, requiring an additional fund of \$20,000.

There has been some increase in two or three sources of revenue, and the Auditor has credited to the School Fund the full amount due it on account of money recovered from defaulting officers and returned to the Treasury; but all these are by no means sufficient to meet the general falling off and justify a per capita exceeding \$2.75. Yours truly,
ED. PORTER THOMPSON.

Absurdity From Abroad.

We clip the following from the Leeds, Eng., Star-of-Bethlehem: "A big revolution is now going on in the United States of America, and there is little doubt that the government will be defeated. The dictator, Debs, has been driven from his palace, and he and his ministers are now hiding in the mountains. The great trouble has been experienced in the capital of Chicago, where Trover Cleveland, the ruler of the rebels, has obtained complete control. The railroad track at that place has been torn up and thrown into the Mississippi river, a stream considerably longer than the Severn, and the stock yards, where the government palaces are situated, have been razed to the ground. The trouble was started by a man named Pullman, who has a stronghold in the mountains of Illinois, one of the most considerable provinces of the country."

The prospects of a conflict between China and Japan, on account of the Korean question, are increasing. China is reported to be actively preparing for war, and Japan has added a number of merchant vessels to its navy. The Korean government is said to have consented to certain reforms proposed by Japan, but if the latter attempts to institute them it will probably increase the tension, as China has heretofore opposed the suggested reforms.—C. J.

I feel I was taken with a kind of summer complaint, accompanied with a wonderful diarrhoea. Soon after my wife's sister, who lives with us, was taken in the same way. We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler, Bottled, Berks Co., Pa. 23 and 54 West 10th St. for sale by A. M. Hughes, Louisville, Ky.

No August Guessing Contest.

The Weekly Courier-Journal has withdrawn its offer of \$1,000 to be given to subscribers who could name the hottest day in August, and guess closest to the highest temperature on that day. This action was taken because of the serious interruption of mails, caused by the great railroad strike. A simple and liberal guessing contest on the November Congressional Elections is now being prepared, and will be announced by the Weekly Courier-Journal shortly.

Electropoise!

For Babes as Well as Old Folks.

I am glad to say that the Electropoise has cured me of rheumatism and fluency, the result of typhoid fever, as well as eczema. Have used it in the family from mother-in-law 75 years old down to the baby, used it on the baby while teething and it worked like a charm. For throat trouble we have never found anything to equal it. Several of my neighbors have them and are all well pleased. I can not say too much in praise of the Electropoise. Mrs. F. M. CARRAHAN, Vernona, Ky.

Brain Congestion and Vertigo

Cured with Electropoise.

Sir: Last July I was taken with vertigo, a congestion of the smaller blood vessels of the brain (hyperemia). I could not study; everything I attempted with me; at last I ate no solid food, but even soups and liquid food did not agree with me; I was induced to try the "Electropoise;" in one night's time it relieved the brain congestion and vertigo. I began the next day to study; I ate from that time what I pleased, and since then I have been a comparatively well man. REV. GEO. H. MEARS, Covington, Ky.

Practical as Well as Theoretical.

I am much pleased with my experience with the Electropoise, and believe it in advance of any known remedy in theory for the restoration of the normal condition of the system, and its effects in the cure of disease has proved its efficacy practically and theoretically.

For a short while only, the Electropoise will be rented for two months for \$5.00.

M. F. CONLEY.

It is very dry in this vicinity at present, and corn is suffering for want of rain.

A. J. Webb, our merchant, is doing a very good business despite the depression in business. The secret is plain. Honesty and fair dealing always have their reward.

Our Sunday School is still flourishing. It is gaining every day, though the people had apparently lost all interest in the good work, yet like true Americans, they rally and come to the front when the opportunity offers itself. They show an interest rarely equaled anywhere.

The school will have a celebration some time in next month, which we hope to make it the event of the season in this county.

F. F. Ginn was calling at Louisville yesterday. We are glad to see him, as he is one of the best boys on Cat.

L. P. Webb's place as Secretary, in our Sunday school was filled by his assistant yesterday. Lewis being called (or calling) at Uncle John Larges.

Livsey Wagon and wife were among the visitors at our little village Sunday.

Preaching yesterday by David Rice. A happy time experienced.

There will be preaching and baptizing here on the fifth Sunday by Barrett and Famin. A large attendance and good time is expected.

Hiram Jordan has bought out Tom Deen at this place; also Wesley Jordan bought out L. P. Webb on the left hand fork of Cat; and there is some one trying to make a bargain with D. Smith, but he refuses to yield his claim, or make a good deed.

The base ball uniforms have arrived and are beautiful. They are good "batting clothes."

Mr. and Mrs. Jerry Gallagher, of Catlettsburg, spent Sunday in Louisville as guests of M. S. Burns and wife.

The date for the next South Methodist quarterly meeting at this place has been changed from the 15th to the 11th of August.

The Hart is cultivating twelve acres of tobacco on Old Northrup's land and it is pronounced the best in this section by those who have seen it.

J. F. Davis, late candidate for the Democratic nomination for Jailor, has been nominated for Magistrate by the Republicans of George's creek and Little Blaine.

A number of Louisa people went to Gallup last Saturday as guests of a picnic given by the people of that locality. They report a most pleasant time.

The colored folks opened a picnic on Sunday morning at this place. All who attend are "titled to a higher plane"—the meeting is held on top of the hill.

The NEWS went to press before the entertainment by the Eastern Sixteenth club took place. Every indication pointed to a most enjoyable evening and a large attendance.

You can subscribe for any newspaper or magazine through the news agency at M. F. Conley's store. It will cost you nothing extra and will save postage and trouble of ordering.

The Louisa base ball nine played a second game known as "Barns' Bases" Wednesday afternoon. The Louisa club won by six scores above the six allowed the other nine in the beginning.

The claim of \$1800 for money expended by Judge J. M. Rice in the contest over his election to Congress, has been passed by both houses of Congress. His many friends were glad to learn of it.

The perfunctory report of the report of the reorganization of the Three C's railroad company and of the prompt building of the road through the Sandy valley is going the rounds of the press. It is too old a story to excite excitement in this section, however.

As our base ball boys like to be posted on Ashland's record we mention that that club beat Mayeville by a score of 1 to 2 in the first game and was beaten in the second game by a score of 11 to 12. In the third game Ashland won by 4 to 1. The team was met at the train on their return by a brass band and were afterward banqueted.

J. H. Bagg, an American who has been selling spectacles in Louisa for about a week, was taken before Police Court Wednesday and fined for selling without having paid the special tax required by the town laws from all merchants, peddlers and other vendors. Some of our home people would do well to look into the law. They ought thereby save themselves from being fined.

Miss Betty Vessie, of Ashland, is the guest of Miss Phoebe Northrup.

The Republicans of the two Louisa precincts met here last Saturday and nominated Wm. Blackenship for Magistrate and Harbison Robert for Constable. The defeated candidates were Grainville Thompson and James See.

The Ladies' Home Missionary Society of this section will hold a meeting at Mary Moore Chapel, below Lockwood, on August 14th. Everybody invited, especially the members. The railway has offered a reduced rate—two cents a mile each way.

Miss J. W. Rice, Sec.

Welsh and Harris, the long-shin and hungry looking "good ones," are back with the Louisa base ball club and the aggregation will do some hard practicing from now until they start on the trip which is now being arranged. With some good solid practice the boys can put themselves into shape for playing winning ball.

For the Sixth Appellate Judge ship Hon. T. H. Paynter received more votes than any of the other three candidates, leaving a carried ten of the fifteen counties. The district convention met Wednesday in Augusta. Mr. Paynter went into it with the instruction of all the counties of the Ninth Congressional district, except that the Harrison county vote was contested. He lacked a little less than three votes of enough to nominate him. If a result has been reached we have not learned it up to going to press.

A large portion of the crowd which attends the ball games played between two home clubs needs reforming. The continuous yelling is very annoying to the people living in that vicinity and unless it is voluntarily stopped there will be an effort to stop it by positive means, if we are to believe what we hear from some of the people who don't usually "crank through their hats." A reasonable amount of applause is not objected to, but the promiscuous yelling that has been done lately is a nuisance. In the practice of the regular Louisa club it is a great disadvantage, as the captain cannot make himself heard in cheering the players, and there are many points on which they need instruction. We are satisfied there will be no more of it if the parties are asked to quit.

Last Saturday night Sunday Workmen last night sat out on the mouth of Trace or Twelve Mile, in Wayne county, W. Va., and killed about 4000 of more chickens. A postoffice is also kept in this store and \$6 in money was taken from that department.

On Tuesday a party of several men came over to this county and brought James Woodson and Birchell Thayer, Jr. from their homes, a few miles up the river, to this place, upon a charge of having been concerned in the robbery. After an investigation the boys were released. The circumstances which led to the suspicion were that the boys were seen in the neighborhood and that they kept out of doors. This was true, but they had no money with which to pay for lodging. They are young men about twenty years old, have never before been accused of a crime, and were simply the victims of unfortunate circumstances in this instance.

Youthful Burglar's. This is not the first time that Roy Frasier and Sam Calhoun have been in line for stealing, although they are only about fifteen years of age. They are now in jail in default of \$200 bail for entering the house of George Reed Diamond last Monday morning about two o'clock and stealing \$235. Diamond lives in a house which sits on the side of a hill below town and there is a trapdoor in the floor on the lower side. This was left open and the boys entered there. It is claimed that Diamond was sleeping with his pants down (which contained the money) under his head, and that the boys removed them without arousing him. However, before the boys got away some of the family were awakened and got out in time to see the intruders. The boys had called at the house twice earlier in the night and asked for matches.

A. M. Hughes' drug store was entered last Friday night by removing the covering to a broken window pane, and it is thought these boys did it. Nothing but a box of cigars was missed.

Big Coal Concern.

The Miller Creek Coal Company, with an authorized capital stock of about a quarter million, will be incorporated this week, with John C. Mayo, of Paintsville, as a heavy stockholder. This company is the product of the hard work of Mr. Mayo, and promises to be a big concern. The lands in the area lie on Miller's creek, some fifteen miles above the present townships of the R. K. & V. road at White House, and comprises some of the very richest coal lands in the State. Some of the veins in this field are seven feet thick, and the future of the company is bright. Ashland Daily News.

SERIOUS SHOOTING

Whiskey Responsible, As Usual.

On last Sunday night Jerry Rife, Jr., shot and dangerously wounded Lee Mosely at Wildsville in this county. It occurred on an E. K. railway train which was just returning with an excursion party which had been to Greenup county. Both parties were drunk but were the best of friends. They had been cursing each other "for fun" and Mosely held his knife in his hand. Rife took out his revolver and something was said between them about cutting and shooting. Rife's revolver was of the "self-loading" kind. It was discharged and the ball entered Mosely's abdomen. The shooting is thought to have been accidental, the result of the careless handling of the revolver by Rife, who was very drunk. He is on bail, awaiting an examination set for tomorrow. Both parties are unmarried. Mosely is a brother to the man who was killed by his father-in-law, McKinney, several months ago.

A few rows are a lot of more, that after the owners take their behind they get their friends to put them on again.

On Tuesday a party of several men came over to this county and brought James Woodson and Birchell Thayer, Jr. from their homes, a few miles up the river, to this place, upon a charge of having been concerned in the robbery.

After an investigation the boys were released. The circumstances which led to the suspicion were that the boys were seen in the neighborhood and that they kept out of doors.

This was true, but they had no money with which to pay for lodging. They are young men about twenty years old, have never before been accused of a crime, and were simply the victims of unfortunate circumstances in this instance.

Youthful Burglar's. This is not the first time that Roy Frasier and Sam Calhoun have been in line for stealing, although they are only about fifteen years of age.

They are now in jail in default of \$200 bail for entering the house of George Reed Diamond last Monday morning about two o'clock and stealing \$235.

Diamond lives in a house which sits on the side of a hill below town and there is a trapdoor in the floor on the lower side.

This was left open and the boys entered there. It is claimed that Diamond was sleeping with his pants down (which contained the money) under his head, and that the boys removed them without arousing him.

However, before the boys got away some of the family were awakened and got out in time to see the intruders.

The boys had called at the house twice earlier in the night and asked for matches.

A. M. Hughes' drug store was entered last Friday night by removing the covering to a broken window pane, and it is thought these boys did it.

Nothing but a box of cigars was missed.

Mr. Editor: While it seems there is no one to appeal to who will bring action to relieve us of the provoking nuisance placed and maintained in our county road just below Rove creek by the O. & B. S. Railroad company, yet its so intolerable and vexing that should it be allowed by our county authorities to remain there, we can not help demonstrating against the situation.

Men are summoned and compelled to quit their work at home and go and work on this road which is virtually rendered worthless to the public by this formidable nuisance placed and maintained in the road by the railroad company; and so far, it there has ever been any objection on the part of our county officials to have it removed, we have never heard of it. We have had some Democratic officials show the nuisance was placed there and we never heard of them trying to have it moved. The last four years we have had a Republican County Attorney and for the last eight years Republican Judges and if they ever made any effort to have it removed it has not been heard of in this locality. The County Attorney is a candidate for reelection and one of the candidates for County Judge is a brother-in-law to the Attorney for the railroad. Now what are we to do? We will carry the matter to the polls.

Most of the people along here gave the company the right of way through their farms and others subscribed money and paid it as a donation and for this the company seems disposed (while the county authorities do not object) to reward them by placing and maintaining sufficient obstruction in our county road to render it worthless. If there is no law authorizing the county officials to remove this kind of obstruction out of our road then they are not to be blamed and the county is in a deplorable condition is simply legitimate prey for the railroad company; but if there is a law to protect our county roads then they are certainly responsible for obstructions being placed and maintained in them.

A Glass House in Danger. The Pickat has discovered another Democrat who was "traded out" of a nomination. Isn't it funny how some people with beams in their own eyes imagine that they can see motives in the eyes of other people? Whether or not trading is trading depends upon who does the trading, eh?
